Postfach 1238

38002 Braunschweig

AZ: H 6855 FM - Cert

13th May 2013

Hereby we certify, that the tested product

AURO Pur Solid Einmalöl-Wachs

fulfills, according to the test report H 6855 FM from 22th February 2013, the requirements of the committee of health-related evaluation of indoor construction products (AgBB, version June 2012) for the emissions of VOC and SVOC in a test chamber.

The requirements have been significantly undercut at the test. The tested product can be assessed as very low-emission.

According to the French VOC regulations, the product fulfills the requirements of the class A+.
