**Please note**

A guarantee is provided for the quality of the products. However, samples of colour tones or products, as well as colour charts, can deviate from the original products or colour tones for technical reasons. Therefore, it is recommended to carry out practice-oriented tests before application. There will be no taking back of mixed products or colour tones. Complaints of mixed products or colour tones are hereby explicitly excluded. The intensity and appearance of the color tone may vary depending on the type of wood and the thickness of the layer. **Idyllic exteriors**

What could be better than spending the day in your beautiful garden? The sky is shining and all the trees, shrubs and flowers are in full bloom.

A protective coat of AURO wood stain on your wooden furniture is all you need. Whether outdoors or indoors, it reliably protects all wood from UV damage in the summer and the various weather effects on colder, wet days.

With a beautiful satin sheen, this transparent wood stain will bring your woodwork alive. Now nothing stands in the way of a well-deserved rest.

**Beautiful homes for people and pets**

In 65 exciting colour shades, you can now create a beautiful home for yourself and those perfect pets in your life. Colourful or simple, AURO colours are a great complement to your garden.

They are quick drying and contain no harmful chemicals and so you and your pets can relax in your new spaces on the same day. AURO wood stains are for a safe and beautiful retreat.

**Safe for little people**

The safety of our little ones is particularly important to us. Due to our solvent-free formulas and compliance with the standards DIN EN 71, Part 3 „Suitable for toys“ and DIN 53160 „Sweat and saliva fastness“, your child can play safely. We hope you can find your child’s favourite colour amongst our extensive range.

If anything needs a fresh coat it’s possible to get exactly the same shade again and again thanks to AURO’s clever tinting system.

**Revitalise and refresh your wood**

Upcycling instead of buying new? A wonderfully sustainable idea to give wooden furniture a fresh look. Whether traditional wood tones or bright colours, AURO wood stains give you a full range of options.

When at home, we want to feel comfortable and safe. The ecological choice of raw materials used to make AURO wood stain guarantees this. Your woodwork is carefully protected and its unique grain is retained through a silky matt surface. This durable wood treatment is easy to apply, has a mild odour - the low-emission wood stain suitable for modern living.
